

Steam Trains in Your Garden

We design and manufacture live steam locomotives in 16mm and 7/8ths scale. Coal and gas-fired versions are available for 32mm and 45mm gauge railways.

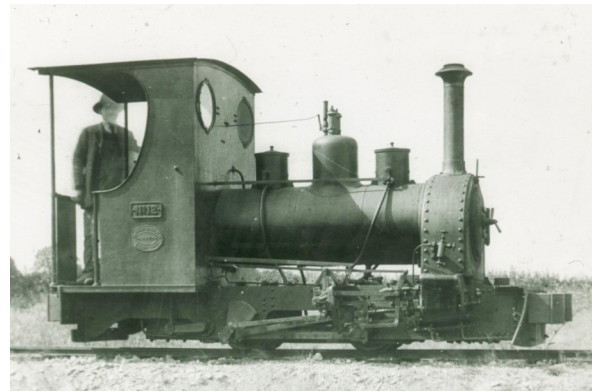

18 INCH GAUGE HUNSLET 0-4-0 WARIL CLASS

WARIL CLASS

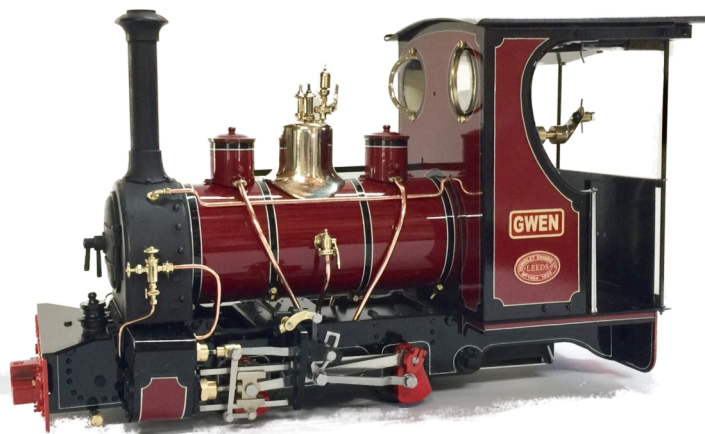

During World War 1, the War Department required 18 inch gauge locomotives for use in the supply depot at Deptford on the Thames.

Hunslet 'Jack' was the basis for the design of 12 oil burning locomotives supplied in 'khaki all over' under the contract code name 'Waril'. Four of these were later purchased for the Sand Hutton Light Railway.

In 1920 John Knowles & Co ordered a new locomotive to complement 'Jack' and Hunslet offered a coal fired Waril Class which was called 'Gwen'.

7/8ths Scale 'GWEN'

This locomotive is available as a fully detailed 'GWEN' or in khaki as a 'Sand Hutton' version. Both can be gas or coal-fired, gauge adjustable (32mm and 45mm) and can be fitted with optional extras including working whistle, 3 channel radio control and SSP Slo-mo.

**7/8ths Scale
Hunslet WARIL CLASS**

- Gauge adjustable - 45mm or 32mm.
- Outside frame 0-4-0 with simplified Walschaerts valve gear incorporating full motion brackets with shaped and profiled stainless steel rods.
- Roller bearings fitted to all axles.
- Goodall fill valve, boiler water gauge, pressure gauge and displacement lubricator.
- Gas tank, gas regulator valve, steam regulator, reversing gear and safety valve.
- Internal gas firing.
- Brass Dome fitted with dummy 'Ross' pop safety valves.
- Glazed opening brass windows to cab front.
- Summerlands Chuffer with FX Control.
- Dummy whistle on cab and dummy displacement lubricators on smokebox with copper piping.
- Painted* cab and cylinder covers with black border and white lining.
- Lining on frame and cab trim under foot plate.
- Painted and lined sand domes (2) and boiler bands.
- Painted half cab back with black borders and white lining on sliding doors.
- Colour - red or khaki.

LIMITED BATCH FOR 2020

Gas-fired \$4450

Coal-fired \$5695

*Sand Hutton is khaki all over with no lining as shown in weathered version above.

Optional Extras (add)	
Working Whistle	\$110
SSP Slo-mo	\$380
Radio Control. Receiver, 3 Channel with HITEC metal geared servos to throttle, whistle & valve gear.	\$615
Radio Control Transmitter	at cost
Freight	at cost
