

## Steam Trains in Your Garden

We design and manufacture live steam locomotives in 16mm and 7/8ths scale. Coal and gas-fired versions are available for 32mm and 45mm gauge railways.

### 18 INCH GAUGE HUNSLET 0-4-0 'JACK'

#### JACK

Delivered to John Knowles & Co in October 1898 for use in the fireclay mines near Woodville, South East of Burton upon Trent, 'Jack' was Hunslet works number 684 and was delivered in 'Midland Railway Express style' with vermilion motion brackets and buffer beams.

'Jack' was constantly in use until 1915 before being re-boilered and rebuilt and stayed in service until 1957. Jack is now preserved at the Armley Mills Industrial Museum in Leeds.

#### 7/8ths Scale Hunslet 'JACK' Detailed

Detailed Version

This locomotive is available as either a **standard** or **detailed** version, both of which are gauge adjustable (32mm and 45mm), can be gas or coal-fired and fitted with optional extras including working whistle, radio control and SSP Slo-mo.

**7/8ths scale  
Hunslet 'JACK'**
